### VINDicate® Coverage

Coverage added for VINDicate® allowing the technician to configure the Make-Model-Year automatically through the OBDR. Selecting Make, Model and Year based on anything other than the VIN can lead to errors in diagnosis, even wrong sensor programming. VINDicate® is the unique process by which the VIN is detected and decoded for the right Make, Model and Year, and used to quickly set up the Bartec TPMS Tool for service. Only Bartec Tools have VINDicate®
